

Multi-Flash SS How to Fold an End Dam

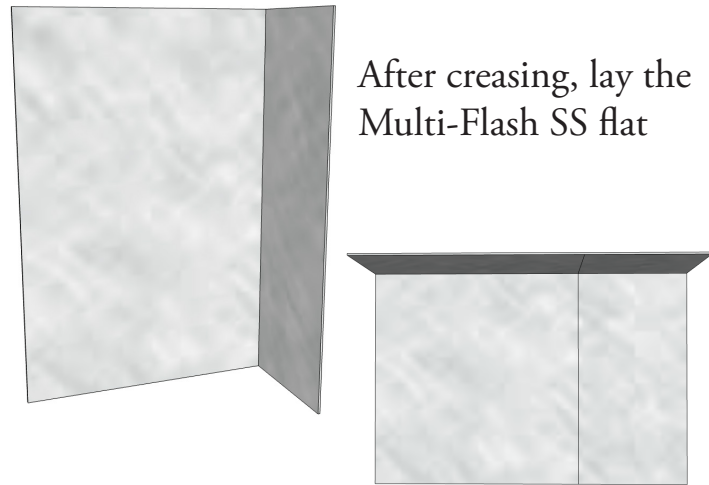

Stainless Steel Fabric Flashing Commercial Application

1:

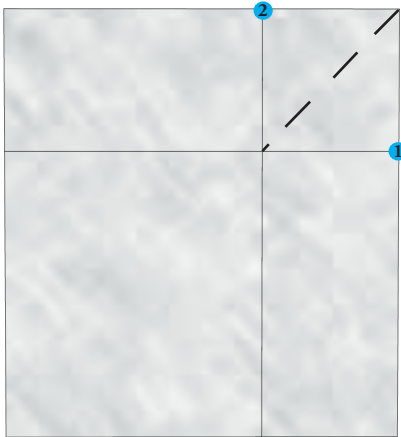

Fold the Multi-Flash SS at the dotted lines (see figure 2)

2:

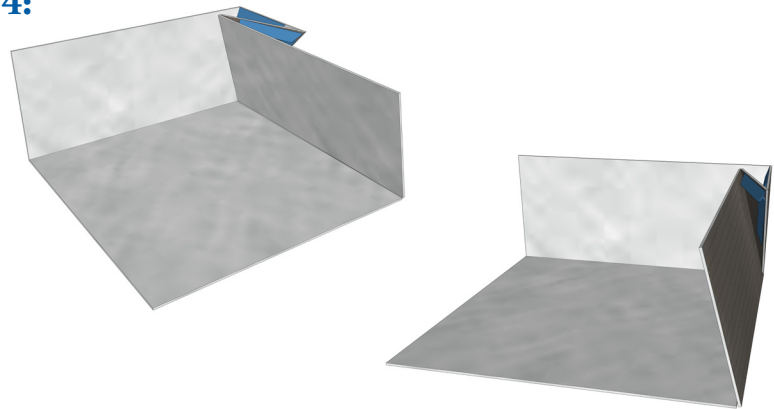

After creasing, lay the Multi-Flash SS flat

3:

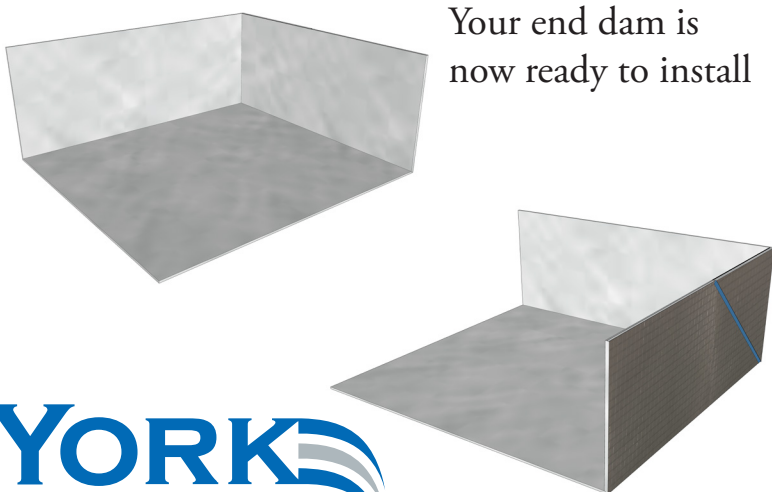

Pull point 1 to point 2, while creasing on the diagonal dotted line

4:

Firmly press all creases together with a bead of York's Universeal US-100 Sealant

5:

Your end dam is now ready to install
