## No-Bow Termination Strip

### Description

York's No-Bow Termination Strip is a self-adhering and mechanically fastened which will keep the termination strip from bowing. The termination strip is for use with all flashing materials, drainage boards, waterproofing membranes, and many other items requiring a termination.

### Description & Benefits:

- No-bow design- butyl adhesive will keep the termination strip from bowing
- TPO with butyl adhesive allows for the termination strip to be mechanically fastened and adhesively attached
- Butyl adhesive backer allowing for primerless installation
- Easy to cut and install: one person installation
- UV stable
- Will not corrode or rot
- Excellent bond to a variety of substrates and provides a watertight bond.
- Design allows for easy sealant installation
- No-Bow is a 50' termination strip which allows for a continuous one piece installation.
