Product Substitution Request

Submitted To: _____

Project: _____

Specified Item: _____

Specification Section: **Masonry Accessories**

Proposed Substitution: **Termination Bar Extender**

- The flashing extender reduces thermal bridging
- Simplifies complex through-wall flashing (TWF) details at corners and end dams when the flashing is installed through the insulation
- 10-degree slope to promote drainage
- One-person installation
- The Termination Bar Extender is not to be used for structural purposes
- System components: Termination Bar Extender, MaxSeal, flat termination bar, US-100, and choice of TWF

Technical data sheet includes product description, specifications, performance, and test data adequate for evaluation of the request.
If not present, is available at www.yorkflashings.com or 1-800-551-2828

The undersigned certifies that the following paragraphs, unless modified by attachments, are correct:

1. The proposed substitution does not affect dimensions shown on drawings.
2. The proposed substitution will have no adverse effect on the other trades, the construction schedule, or specified warranty requirements.
3. Local support and availability will be available for proposed substitution.
4. Mock-up wall materials available upon request.

The undersigned further states that the function and quality of the proposed product substitution is equivalent or superior to the specified item.
