

Wicked Good Flashing: A Wicked Good Deal

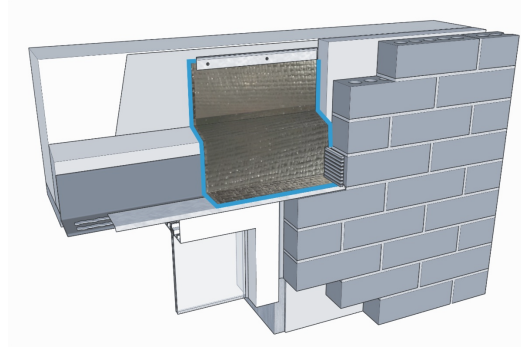

Wicked Good Flashing is a 32 mil thick through-wall flashing and transition membrane with an extra-tough abrasion-resistant coating (ARC) that provides three years of UV exposure, and offers a great surface for air barriers and sealants to adhere to.

- **Butyl adhesive** for superior adhesion
- **Non-staining and non-asphaltic**
- **No primer required**
- **Best-in-class** puncture and tear resistance
- **Compatible** with all neighboring materials

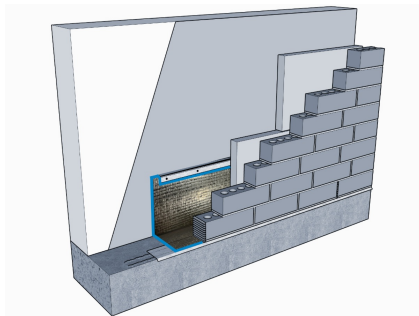

Application Examples

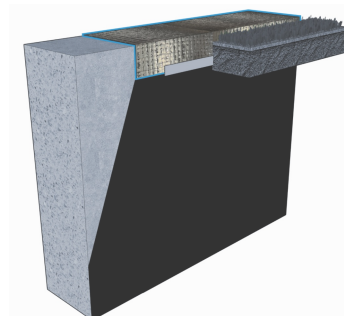

Parapet Transition Membrane

Window Head

Base of Wall

yorkflashings.com

Specializing in transition membranes and through-wall flashing, York has been inventing and producing flashings since 1935. As the leader in commercial and residential flashing industry, York has led the charge to create flashings that are compatible with the air barriers and insulations that populate the cavity wall.
